FAN PANEL HEATER

eco

Stylish...  
Instant Warmth from  
13¢ per hour...  
Proudly Australian-Made

## Our quality statement:

When you purchase any product carrying the Pureheat brand you receive our commitment that the product utilises only quality components. Pureheat endorses Australian jobs with over 40 years experience in local manufacturing. We source from Australian suppliers wherever possible.

This quality assurance is backed by an extensive warranty, after sales backup and service support.

Pureheat's goal is to become your energy saving partner by providing energy efficient and environmentally friendly products.

## Instant Warmth

The whisper quiet fan of Pureheat's Odyssey Eco fills the room with instant warmth. Odyssey Eco is the answer if you require on-demand heating for any living space. In fact, Odyssey Eco fan panel heaters will reach set room temperature up to twice as fast as major brand convection panel heaters.

## Safe

Your family's safety is important to Pureheat. In comparison to ordinary radiant and convector panels, every Odyssey Eco heater runs at a low body surface temperature.

## Australian-Made

The Odyssey Eco series proudly carries the famous Australian-made logo. We have over 40 years of local manufacturing experience and Pureheat knows what it takes to make reliable, functional heaters. Our goal is to support Australian jobs.

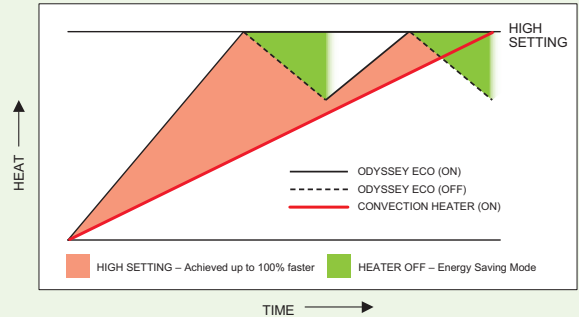

## Economical

The Odyssey Eco saves energy by cutting to Off once the desired room temperature is achieved. The selected heating range will be maintained automatically – instant warmth and just cents per hour to run.

COMPARISON OF TYPICAL OPERATION - ODYSSEY ECO & PANEL HEATERS

## The Odyssey Eco Range

Figure 1

### Energy Saving Tip:

Reduce wasted energy by using Pureheat 24 hour Timer models

NB- Hard-Wired Models

Must be installed by an REC

## Controls

Figure 2: Thermostat only

Figure 3: 24 hr Timer & Thermostat

	Model	Finish	Control	Economy	Boost	\$Cost
		(Fig.)	(Fig.)	(Low Heat)	(High Heat)	per Hour <sup>1</sup>
<b>Plug &amp; Cord Models</b>						
<b>Odyssey Eco 2400 Watts</b>	Room Size - to 24 M <sup>2</sup>					
	OE24W	1	2	OFF	2400W	\$0.13¢
	OE24TW	1	3	OFF	2400W	\$0.13¢
<b>Hard-Wired Models</b>						
<b>Odyssey Eco 3500 Watts</b>	Room Size - to 35 M <sup>2</sup>					
	OE35W	1	2	OFF	3500W	\$0.20¢
	OE35TW	1	3	OFF	3500W	\$0.20¢

Sizing assumes high class insulation, normal window spacing, draught-free, 2.4m ceiling and 1Kw per 10m<sup>2</sup> floor space.

1/. Assumes \$0.13¢/KwHr\* energy tariff, floor space of 20m<sup>2</sup> (OE24) and 30m<sup>2</sup> (OE35), and 50% On/Off thermostat cycling.

\*Energy tariffs may vary per state. Consult your electricity retailer for actual cost.
