Bella Doccia Suite

Ullrich Aluminium

Presents the very latest innovation in SEMI-FRAMELESS Shower screen designs; The "BELLA DOCCIA".

The innovative approach and design has transformed the New Ullrich "BELLA DOCCIA" shower screen into a market leader.

The new trend setting "BELLA DOCCIA" design offers a fully integrated shower screen suite with European influenced design, styling and functionality. The slim clean lines coupled with European styled hardware will enhance and complement your bathroom decor.

The "BELLA DOCCIA" is a truly innovative design offering a choice of assembly methods, a small compact range of custom designed Australian extrusions and hardware components used across multiple design options. Semi-frameless, fully framed designs all with the ability to accept frameless, semi-framed or fully framed pivot doors. Overlap or in-line door solutions are all standard features. A choice of two decorative pivot chrome covers, a European minimalistic design and a softer round top option.

The ULLRICH Aluminium BELLA DOCCIA showerscreen is designed to give you choice and options in the final product without compromising design, features or quality.

ULLRICH Aluminium sets the new standard in shower screen design with the "BELLA DOCCIA" suite.

ULLRICH Aluminium is committed to on-going product development, always striving to offer the very best and most innovative design solutions.

The name says it all. "BELLA DOCCIA" translated means "Beautiful Shower"
