NESA VISION

First in Innovation, Quality and Style

NESA has built its reputation as the market leader in In-Car Entertainment over 8 years in the market. NESA offer the largest and widest range featuring high quality components, style, functionality, reliability and unmatched price.

Year after year NESA lead the way with cutting edge technology and first to market innovation. The 2007 lineup see an increase in the high quality indash LCD range. Features include SD card, USB and Ipod inputs; DIVX, MP4, MP3 and multiregion formats. Models feature fully motorised and detachable LCD screens for security and performance, Lazor Soft Touch buttons, touch screens and remote controls for ease of use.

NESA is excited to introduce award winning Navigation Software with its new portable and indash Audio Visual Navigation systems. Relax and let NESA NAV show you the way.

The 2007 Roof Mount Combo range include world's best components like the DVS DVD loader system, Sharp and Toshiba LCD panels, flawless FM transmitters and IR senders. Screens range in size from 7" to 15" LCD panels. Combos come in a range of colours (black, grey, beige) and styles. Having quiet and happy passengers on a long drive ensures less stress for the driver.

NESA is also the market leader in Rear View Camera systems. The Heavy Duty range of cameras are unmatched in quality and reliability. NESA's replacement rear view LCD mirror and colour camera systems suit nearly every vehicle. For safety, security, performance and peace of mind, install a NESA Rear View Camera system.

NESA's latest range provides the perfect solution to your mobile entertainment, navigation and rear view needs. Relax... and enjoy the ride with NESA.

NAV-12 UNIVERSAL GPS NAVIGATION SYSTEM WITH AUSTRALIA WIDE MAPPING

FIND YOUR WAY WITH NESA NAVI

NESA NAV-12 is the latest in-car navigation system featuring turn-by-turn navigation, re-routing, 3D, 2D and bird's eye view, points of interest, history and favourites. This system will plug into most AV screen inputs and comes with its own speaker, magnetic base GPS antenna (Sirf III), full function remote control, remote eye and all RGB and AV cables. It comes with the latest Australia wide mapping on SD card and is simple and easy to use. The design is unique in that the hideaway box will suit both OEM & aftermarket screens, making the NESA NAV-12 an ideal add on to your reversing or entertainment system. Find your way with NESA NAV.

NAV-FORD UNIVERSAL GPS NAVIGATION SYSTEM WITH AUSTRALIA WIDE MAPPING

FIND YOUR WAY WITH NESA NAVI

NESA NAV-Ford is the latest in-car navigation system featuring turn-by-turn navigation, re-routing, 3D, 2D and birds eye view, points of interest, history and favourites. This system integrates seamlessly to the original Ford colour screen as used in Territory, BA and BF. Remote control feedback is also controlled by the Ford system leaving the system totally hidden. Supplied with its own speaker, magnetic base GPS antenna (Sirf III), full function remote control and all pre cabled looms. The NAV-Ford comes with the latest Australia wide mapping on SD card and is simple and easy to use.

Fords that have an existing camera require an additional splitter.

fleetminder

GSM + GPS SECURITY AND ASSET LOCATOR MODULE GPRS + GPS REAL-TIME TRACKING AND MONITORING MODULE

- The Fleetminder is capable of transmitting data via GSM or GPRS at set intervals. The location, speed and direction can also be transmitted in SMS or email format. Real time or periodic logged data can be tracked on mapping software.
- The Fleetminder is easily programmed for specific requirements. Changes to the Fleetminder setup can be done through SMS or emailing the module.
- Each Fleetminder module can be easily programmed by the user to have a unique identifying label, to your requirements.
- The Fleetminder comes with an internal backup battery that provides 48 hours of battery life in standby mode.
- Fleetminder can be interfaced into diagnostics or other electronic equipment to send data via GPRS.
- Fleetminder comes with two output and two input triggers but can be expanded to five triggers if required.
- Fleetminder works on GSM and Next G networks.
- The compact size of this unit (51x23x80mm) means the Fleetminder Micro can be mounted anywhere.
- Fleetminder has been successfully sold in Australia for the past 18 months.

FEATURES:

- SMS:** reporting of vehicle location, speed and direction direct to users mobile phone or to pc via sms
- Email:** email of Logged data of vehicles location and event history via user supplied email address.
- GPRS:** live tracking of vehicle with suitable server software
- 2 x digital inputs:** typically used for automotive security with outputs being arm and alarm. Can be configured for other purposes.
- 2 x transistor outputs:** for controlling external relays such as lights, central locking, starter motor, etc.
- Ultra small size:** with an internal backup battery integration allows unit to be concealed in the tightest of spaces.
- External GPS and GSM antennas:** allow for excellent GPS and GSM reception in the most awkward installation sites.
- SIM card:** can be easily inserted and removed on demand by end user.

bikeminder

GSM+ GPS SECURITY AND ASSET LOCATOR MODULE

- SMS alert sent to your mobile phone
- Digital tilt sensor
- Alarm activation
- Tow away alarm activation
- Locate and disable your bike through simple sms
- No ongoing monitoring fees or charges
- GPS Built-in
- Waterproof, shock resistant, micro-design
- Built-in UBD co-ordinates
- Speed alert
- Geofencing
- Battery backup included
- Easy track and trace with UBD co-ordinates
- Free web based mapping solution
- Smallest design in the market
- Australian made

Protect Your Bike No 3rd Party Monitoring Fees or Charges

FEATURES:

- SMS:** reporting of bike's location, speed and direction direct to users mobile phone or to pc via sms
- Email:** email of Logged data of bike's location and event history via user supplied email address.
- 2 x digital inputs:** typically used for automotive security with outputs being arm and alarm. Can be configured for other purposes.
- 2 x transistor outputs:** for controlling external relays such as lights, starter motor, etc.

NSR-KCV8 & CCD-IR

6" REAR VIEW MIRROR TFT LCD CLIP ON MONITOR WITH HIGH-RES FLUSH MOUNT CAMERA

NSR-KCV8

Built-in 6" LCD screen for rear view camera, navigation, DVD or reverse sensors. Screen switches on automatically when camera or Navigation activated. Excellent picture quality even in strong sunlight to make driving safer. Multi-purpose monitor for VCD/DVD/TV/GPS. Anti-glare mirror for day and night time use. Easy installation with universal clip-on to old mirror. Full function remote control and OSD menu.

- Monitor size: 6"
- Aspect ratio: 16:9
- TOSHIBA TFT-LCD panel
- Resolution: 800 x 480 pixels
- Power supply: DC12V
- Power consumption: <5W
- Netweight: 0.5kg
- Dimensions: 279 x 95 x 24mm

CCD-IR

A superior flush mount colour camera with 120 degree view angle and IR enhanced for night vision. Nice clear image even in low light conditions. This flush mounted camera can be mounted almost anywhere! Angle the view on your flush mounted bullet camera with the included ring mounting kit.

- 1/3" CCD image sensor
- O-Lux low light camera
- NTSC colour image
- Reverse image
- IR led enhancement
- Angle & bumper fit
- Vandal & vibration resistant
- Fully waterproof

NSR-KC45 & CCD-MINI

4.5" REAR VIEW REPLACEMENT MIRROR WITH HIGH-RES BULLET CAMERA ALSO WITH BLUETOOTH

NSR-KC45

The replacement rear view mirror has a built in 4.5" LCD screen which can be connected to a rear view camera, navigation system (or even DVD when parked). The hi-quality monitor provides a clear bright image and the mirror's mounting bracket means it will fit most Australian and imported vehicles. It looks factory fitted.

- Built-in 4.5" LCD screen for rear view camera, navigation, dvd or reverse sensors
- Screen switches on automatically when camera or Navigation activated
- Excellent picture quality even in strong sunlight to make driving safer
- Anti-glare mirror for day and night time use
- Easy installation with removal and replacement of old mirror
- Full function remote control and OSD menu
- Excellent quality, factory fit look

CCD-MINI

The butterfly mount camera has the clearest picture on the market. It provides a 150 degree view and is small, discreet and robust.

One of our most popular kits suitable for cars, vans, trucks and buses.

- 1/4" CCD colour image sensor
- Bracket mount type
- Viewing angle: 150° diagonal
- Waterproof
- Simple to install
- Dimensions: 20 x 25mm

NSM-250N & CMS-IR

2.5" DASH BOARD MONITOR WITH CMOS BUMPER MOUNT CAMERA

NSM-250N

The 2.5" colour LCD monitor can be mounted on the dash or the roof lining. It has brightness and colour contrast controls and will switch on automatically. It has 2 inputs for a Camera and Navigation system signal.

- Screen type: TFT-LCD
- Display size: 2.5" screen
- Display aspect ratio: 4:3
- Power: 2W
- Power supply: DC12V + 10%
- System: NTSC/PAL
- Operation temperature: -20° C ~ +65° C
- Screen resolution: 1440 (h) x 234 (w)

CMS-IR

The colour flush mount camera is wide angle and is IR enhanced providing a good image even in total darkness. It is waterproof and comes with an angle mounting kit so it can be mounted almost anywhere. A high quality system at an entry-level price that is hard to beat. Suitable for cars, vans and trucks.

- 1/3" CMOS image sensor
- O-Lux low light camera
- NTSC colour image
- Reverse image
- 120° view angle
- IR LED enhancement
- Adjustable angle bumper fit
- Fully waterproof
- Vandal & vibration resistant

NRM-7055 & ECC-70N

7" TFT-LCD STAND OR FLUSH MOUNT WITH HIGH-RES WATERPROOF CAMERA

NRM-7055

The 7" LCD monitor has a super bright panel, and one of the clearest pictures available. The image can be reversed or flipped and the screen can be stand or flush mounted (stand and shroud included). 2 AV inputs allow for two cameras. Inbuilt speaker allows for audio output. A robust and durable screen for all vehicles.

- 7" Stand mount car monitor
- Panel: AU 7"
- Aspect ratio: 16:9 TFT-LCD
- Screen resolution: 480 x 234
- Brightness: 500cd/m2 (NIT)
- Contrast ratio: 350:1
- Image function: Reverse mirror 16:9 / 4:3
- Power consumption: DC 12V, 3.47W
- NTSC / PAL auto switching
- Stereo 2 channel, earphone jack
- Wireless IR remote control
- Weight: 400g
- Dimensions: 178(h) x 135(w) x 22(d)

ECC-70N

This diecast aluminium camera is one of the clearest and toughest on the market. IR enhanced for night vision. This camera is vandal and damage resistant, fully waterproof and includes a condensed microphone. A very reliable top seller suitable for cars, vans, buses, boats, trucks and heavy machinery.

- Die cast metal housing
- Ultra low light performance
- Built-in microphone
- Extra wide angle
- 20m cable, RCA convertor included
- NTSC colour image
- Fwd / Reverse image (mirror / normal)

VRBC-300W

WIRELESS BACKUP COLOUR CAMERA SYSTEM DIY

The VRBC-300W is an ideal and affordable wireless backup camera system for passenger vehicles that is simple to install. The Colour CCD camera mounts on the number plate, powers off the reverse light and provides an excellent wireless image to the 2.5" colour screen that can be mounted on the dash or the sun visor. The monitor can power off the cigarette lighter.

- Installs as easy as 1... 2... 3....

- 110° Horizontal 80° Vertical Viewing Angle
- Mounts on Dash or Visor
- Universal fit for Cars, RVs and Delivery Vehicles etc
- 2.4Ghz Wireless system
- CCD colour camera - number plate mounted
- 2.5" LCD Colour Monitor with detachable stand
- For Use With 12 Volt DC Electrical Systems
- Helps Avoid Accidents & Injuries

URC-04

ONSCREEN REVERSE SENSOR

Reversing has never been easier with the 4 Ultra sonic radar bumper sensors that provide you with not only an audio warning but also actual distance on screen when coupled with an existing reverse camera/screen, OEM screen or entertainment system. The sensors are very accurate, easy to install and come in three colours or can be painted to suit. Don't risk a fatality or accident again and ensure you know exactly how far you can reverse with these distance sensors.

- Ultrasonic reverse sensors x 4
- Audio beeper
- Sensor colours (Black, white, grey)
- On screen distance display
