Architectural Thick Gauge Glazing

EGR Extrusion can now offer the first Australian made thick gauge glazing for Architectural and Commercial applications. The new acrylic sheet is available from 12 to 25 mm thick and Polycarbonate sheet from 12 to 15 mm thick. Sheet sizes up to 2500 mm wide and 6000 mm long are available.

The optical grade, high performance sheet can be supplied in clear, tinted or a solid colour.

EGR leads the way with advanced sheet extrusion technology and EGR thick gauge glazing is backed by 40 years of local manufacturing experience. As a result the thick gauge material offers outstanding features such as:

- superior light transmission
- very high UV resistance
- optical grade resin
- exceptional flatness control
- 10 year minimum warranty period
- customised sheet sizes and colours
