Detachable handpiece with normal and spray action

No 9201-1

# Lumino Deluxe Electronic Mixer

• Hot

• Tempered

• Cold

Illuminated LED Water Temperature Indicator

No 9301-1

Lumino Electronic Mixers are advanced in design and exciting to use with finger tip control for all water and temperature functions.

The Lumino Electronic Mixers are innovation in design with sophisticated technology. Turn the water on and off, change spray patterns, or regulate temperature and flow rate! All of these functions can be activated with the tip of your finger. The touchpad is illuminated by the LED water temperature indicator, which changes colours as the

temperature is adjusted from Hot (Red Light) to Cold (Blue Light) and anywhere in between. In the event of temporary power outage, a battery, which is housed in the under-sink patented MEC electronic control box, allows for continued use. Lumino Electronic Mixers, setting a new standard in design and function for today's kitchens.

Lumino Electronic Mixers are manufactured in Italy by Novelli Tapware in association with MEC Electronics.

- WaterMark Licensed to Australian Standards
- WELS Approved.
- MEC 2 Year Electronics Warranty.
- Novelli 5 Year Mixer Warranty.
