

Billi Filter Tap

Filtered
drinking water
system

Billi **Filter Tap**...a source of sparkling clear, great tasting filtered water

Refreshing filtered water

Sparkling clean, filtered water is nature's most refreshing drink. The Billi **Filter Tap**'s dual-stage, large capacity water filtration system effectively removes undesirable sediment, chemicals, heavy metals, chlorine, pesticides, tastes and odour, for better tasting and healthy water.

Replacement filters

Periodic replacement of filter cartridges is necessary to maintain water quality. Genuine replacement Billi filter cartridges are available from authorised Billi agents. Cartridges are also available to suit the particular needs of different water supply areas. All Billi filters are NSF42 certified and optional sub micron filters are NSF53 certified to safely remove health threatening giardia and cryptosporidium.

Billi recommends filter replacement at intervals of 6 to 12 months depending on levels of usage and water quality.

Simple Installation

Installation of the Billi **Filter Tap** is a simple task. Coded flexible tubing and easy-connect fittings ensure a rapid and trouble-free operation.

Billi Font – water where you want it

The Billi Font harmonises perfectly with the **Filter Tap** Dispenser and allows installation away from the traditional sink area. Designers have greater flexibility as the Billi Font can be easily installed where it is most needed.

24 Month Warranty

All components of the Billi **Filter Tap** are covered by a 24 Month Warranty. Filter cartridges are a consumable and are not covered by Warranty as water conditions and usage vary.

Certifications

Every Billi drinking water system is manufactured under a certified quality control system. The Billi **Filter Tap** has been tested and complies with all required standards including: Watermark Licence Number 21882. Tested to: ATS 5200.105:2005.

Options and accessories

- **Dispenser Style:** Round slimline dispenser standard or optional square slimline dispenser available.
- **Finishes:** Standard finish for the **Filter Tap** dispenser is Bright Chrome. Optional finishes include Brushed and Black Chrome.
- **Billi Font:** Allows the **Filter Tap** to be located away from sink areas. Standard finish Bright Chrome or optional finishes include Brushed and Black Chrome.
- **Tubing Extension Kit:** Allows the dispenser to be offset from the underbench unit, by up to 2.0 metres.
