Gorter® Hatches - Roof access hatches for small and large buildings

Roof hatches combined with hook on ladders, fixed stair cases or scissor stairs

Gorter has moved up to the top 100 most innovative companies in The Netherlands. Gorter® has proven to have the most practical and safe solutions to access a roof. The Gorter® roof hatches can be safely opened with one hand and access to the roof is safe and easy. All roof hatches combined with these ladders and stairs have been tested annually. All steel roof hatches can be supplied with a 2 hour fire rating. All test certificates can be downloaded from the website free of charge.

Special Architect service

Drawings, specification and certificates can be downloaded from the website. DWG files can be supplied on request. Please visit the website, or email sales@gorterhatches.com.au
