

nuvo
aspire®
the new face of bricks

Perfectly toned

Look no further for new colour in brick. The Nuvo Aspire collection from Boral is crafted from select natural clays in soft hues that are kiln-fired and locked in for a lifetime. Unrivalled in tone and texture, the range consists of uniform neutral tones that achieve a flawless finish you won't want to cover up.

Easy to accessorise, with choice in mortar effects, the Nuvo Aspire palette is as functional as it is stylish.

And with no need for paint or render you'll also cut down on mess, wastage, scaffolding and the number of trades on site. What's more, there's virtually no maintenance required. So you can be confident that the job's done first time, every time.

For more information about Nuvo Aspire and availability in your state, call Boral Bricks on 13 30 35 or visit www.boral.com.au/nuvoaspire.
