

# WovenWire

## Features & Benefits

- Woven Wire, constructed from 100% 'Solution Plus™' Nylon is manufactured to a robust 28oz pile weight.
- 'Solution Plus™' is a premium grade solution dyed nylon suitable for commercial and domestic markets.
- Woven Wire contains up to 25% recycled pile content, enhancing its environmental credentials.
- 'SolutionPlus™' complements the Woven Wire design by giving excellent resilience to wear, thus retaining its strength of colour and original condition with minimum maintenance.
- 'SolutionPlus™' resists both water and oil-based spills resulting in reduced maintenance & cleaning.
- 4 unique styles incorporating cutting-edge colours, give a comprehensive palate of 32 options, to add a new dimension to any office interior.
- The Rope and Braid styles feature an alluring metallic sheen creating a distinctive modern feel with a truly avant-garde edge.
- The Chain style features a subtle texture giving timeless class.
- The Cord style features a variation of the traditional sisal, giving a sophisticated, yet classic look.
- Our **ecare™** impervious backing system is an option with the WovenWire range for the health care, aged care and other demanding environments. This prevents sub-floor contaminations.
- Woven Wire complies with 'AELA Ecolabel' program requiring low volatile organic compounds and air emissions.
