# Specifications & dimensions

## Full Range

Refer to additional catalogues for Oliveri's full range

**International Collection**  
Selected Oliveri accessories, tapware and other products are sourced from international suppliers. They are designed and manufactured to Oliveri's specifications and quality standards.

### Easy Clean Corners

The Professional Series bowls have been designed with tight radius corners which are hygienic & easy to clean whilst not harbouring harmful bacteria.

### Softtone® and Sound Proofing

This process enhances sound proofing and heat retention.

### Large Capacity

The extra capacity bowls are designed to accommodate the largest of cooking pots, pans and oven trays.

### Bowl Protectors

Bowl Protectors that help prevent scratching and provide extra defrosting space are included as standard with all Professional Series sinks.

## Care & Maintenance

These Oliveri sinks are manufactured from genuine 18/10, 304 grade stainless steel, for optimum hygiene and durability. The 16 Gauge (1.6mm thick) sink is extremely strong, however no stainless steel sink was ever designed to do battle against hardened metal utensils or food processor blades, without incurring at least a few scratches.

The best prevention against scratching is to exercise a little extra care, or even to use one of Oliveri's accessory baskets when washing cutlery and the like.

To maintain the shine on your Oliveri sink, regular maintenance is recommended with any of the easy to obtain, non-abrasive stainless steel cleaners or metal polishes.
