Largest Double Bin Capacity Available Now. Up to 80 litres

HIDEAWAY Bins launches the new 40 litre bucket range, providing you with the largest double bin capacity available for all your hidden bin requirements.

The new 40 litre bucket range includes both single and double hidden bin solutions. The double bin solution provides a whopping 80 litres of storage.

A Parented Air Vent System to maximise bag volume.

Four U-shaped air vents have been designed into the lip of the bucket, allowing trapped air to escape as the bag is pushed into the bucket cavity. This eliminates the frustration of trapped air restricting the liner, maximising bag volume.

All Hideaway Bins are designed to be mounted at bench height. The introduction and use of the additional side mount supports will ensure the unit holds up to the challenge of a busy kitchen.

The 40 litre bucket range from Hideaway Bins offers solutions for all your hidden bin requirements.
