

150MM WIDE THRESHOLD PLATES!

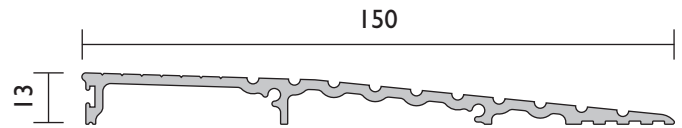

The RPI37 is a new low profile, heavy duty aluminium threshold plate. Used in conjunction with Raven door bottom seals to provide an enhanced seal against weather, rain, draughts or smoke infiltration

Key Features

- » Extra wide 150mm plate to suit larger style commercial door frames
- » Available in 1000mm, 1750mm, 2000mm & 3000mm
- » Conforms to Access & Mobility standards
- » Available in hard anodised 25 microns, satin clear (silver)
- » Easy screw fix (screws supplied) or quick fix with builders adhesive

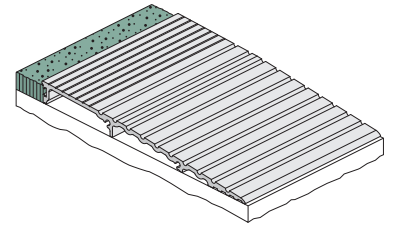

NEW RPI37

The new RPI38 is a heavy duty threshold plate that offers a compliant ramp transition up to 13mm, to suit tiles, carpet or timber flooring at doorways. RPI38 can be used as a ramp border for internal floor matting or be positioned back to back to form a 300mm wide threshold plate.

Key Features

- » Extra wide 150mm ramp threshold plate to suit larger style commercial door frames
- » Available in 1000mm, 1250mm, 2000mm, 2500mm, 3000mm
- » Conforms to Access & Mobility standards
- » Available in hard anodised 25 microns, satin clear (silver)
- » Easy screw fix (screws supplied) or quick fix with builders adhesive

NEW RPI38
