

Silent System – Sounds Great!

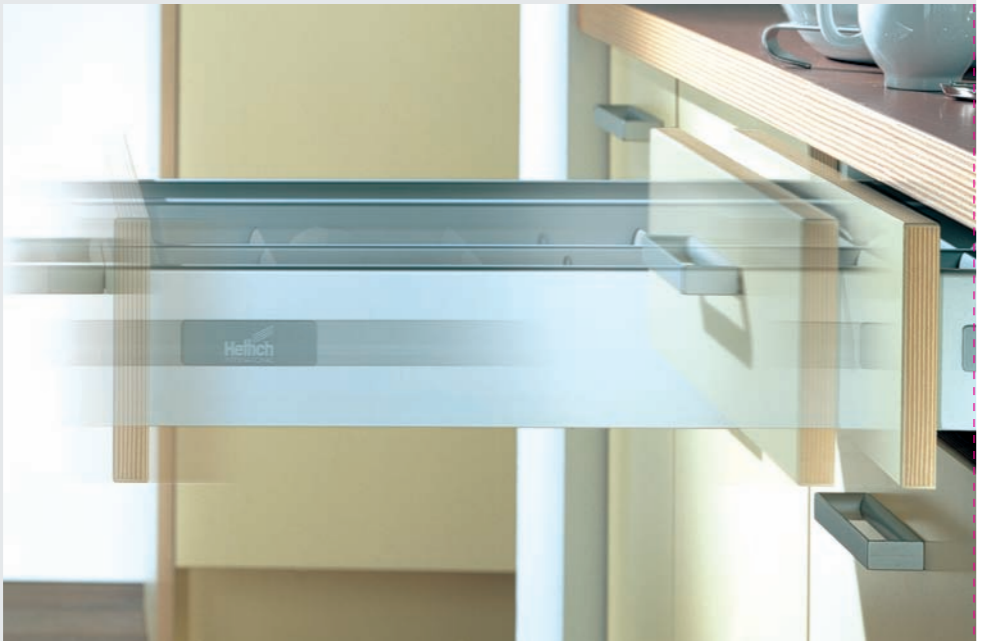

Enjoy the comfort, convenience and luxury of silence in your home with Hettich's Silent System dampening for doors, drawers and pantries.

All furniture and cabinets fitted with Silent System technology slow down in the last phase of closure and shut softly and silently. Loaded drawers, heavy doors and packed pantry units can all benefit from the Silent System technology. The system is clever and durable to slow every storage unit in the final closing millimetres and bring it to a smooth, soundless stop.

This quality, innovative damping model merges seamlessly with Hettich's overall expertise in furniture fittings. Hettich stands for efficient, ergonomic and organised solutions in the home. Thanks to Silent System, practical storage now also comes with the welcome hush of luxury for total comfort and convenience in your home.

Trends and Innovations for Intelligent Kitchens

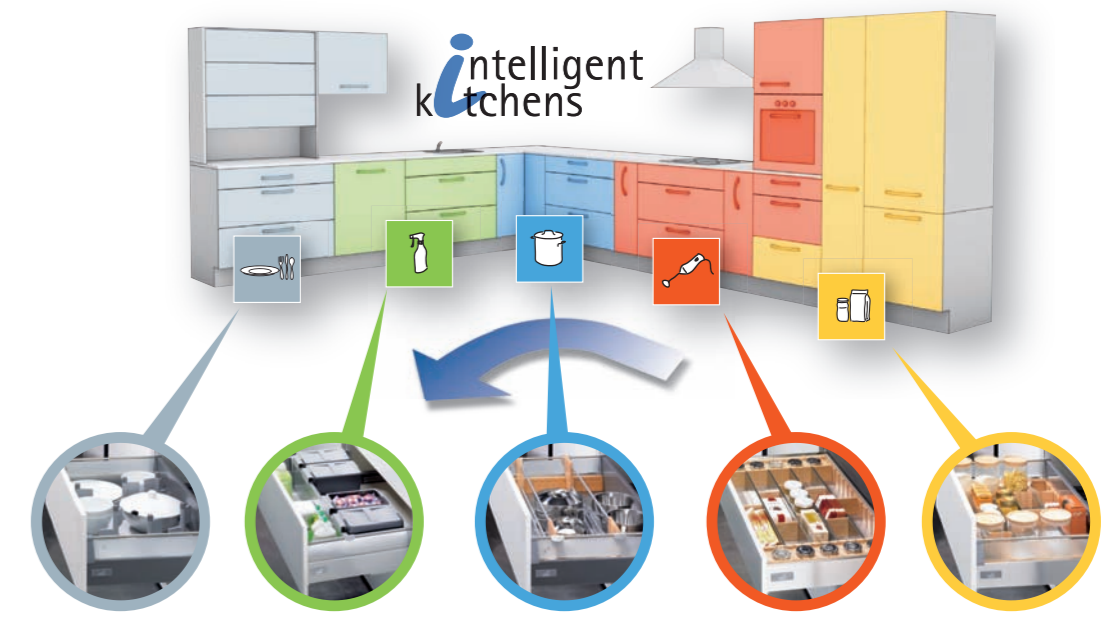

Intelligent Kitchens

Efficiency is king when kitchen layout and storage are planned along functional lines. These are the five areas that matter:

- Food storage
- Food preparation
- Pots and pans
- Cleaning agents and waste
- Crockery and cutlery

Our Intelligent Kitchens concept offers you ideas on kitchen layout and on choosing and optimising storage units for the highest level of user comfort. Smooth workflows make kitchen work more enjoyable by minimising time and effort.

For more information on Hettich's Intelligent Kitchens concept go to www.intelligent-kitchens.com or download a copy of the Intelligent Kitchens recipe book from www.hettich.com.au

The Intelligent Kitchens concept divides the kitchen into five functional areas:

- China and cutlery
- Cleaning agents and waste
- Pots and pans
- Food preparation
- Food storage

About Hettich

At Hettich, we don't make kitchens - we make kitchens better! Our comprehensive range of products provides innovative and ingenious solutions to many of your old storage problems.
