RED SERIES

Direct Vent Gas Fireplaces

RED SERIES

Rectangular European Design

The RED Series elevates the level of style and function in linear fireplaces. These elite models create a chic, warming atmosphere through contemporary, non-traditional shapes and materials.

At the forefront of every RED Series fireplace are innovations in technology, design and safety. Read on to discover more and learn how "No One Builds A Better Fire."

Above: RED60 shown with LED lights, cobalt blue media, absolute black granite refractory and standard safety mesh.

Cover: RED40 shown with LED lights, scarlet media, absolute black granite refractory and surround, and standard safety mesh.

RED SERIES

RED40

The RED 40 works beautifully with non-traditional shapes, material and design elements. A 40-inch viewing area showcases elegant flames and linear style. Make it your own with many custom finishing options.

RED40 shown above with LED lights, scarlet media, absolute black granite refractory and surround, and standard safety mesh.

RED60

Take modern design to the next level. The RED 60 makes an impact in any space. A long, hypnotic ribbon flame rises through attractive modern media and dances along the 60-inch viewing area.

RED60 shown above with LED lights, crystal glass media, porcelain-ized steel refractory, and standard safety mesh front.

RED40 SEE-THROUGH

Spread stunning style and warmth into two different spaces. The RED40 See-Through remains a staple of modern designs by Heat & Glo, and blends unique linear design elements with superior technology.

RED40-ST shown with black onyx media, porcelain-ized steel refractory, absolute black granite surround and standard safety mesh.

ALWAYS IN STYLE

RED Series fireplaces explore cutting-edge designs and countless finishing options. LED accent lighting, modern media, surround and interior options let you create your own unique style.

BE INSPIRED

Our Flame, Your Fire

Creating a dramatic focal point in any space begins with a custom fire. Any combination of the options below can drive your interior design. Make a statement with elements reflecting your style and inspiring your home.

RED series fireplaces offer more than 20 variations of stone and glass media options, LED accent lighting, porcelain or granite refractory liners and surrounds.

Shown Right: RED60 shown with absolute black granite surround, refractory and base, and standard safety mesh.

MEDIA OPTIONS

The area around your flames can look many different ways. Choose the smooth, sleek look of black granite stone, or create a “fire & ice” effect with crystal glass rocks. The color contrasts are bold—and the look is amazing.

MEDIA OPTIONS WITH LED ILLUMINATION

Scarlet

Emerald

Cobalt

Crystal

USING THE CRYSTAL GLASS MEDIA you can choose up to 7 different colors of LED illumination

Crystal with white LED illumination

Crystal with red LED illumination

Crystal with green LED illumination

Crystal with blue LED illumination

MEDIA OPTIONS WITHOUT LED ILLUMINATION

Onyx

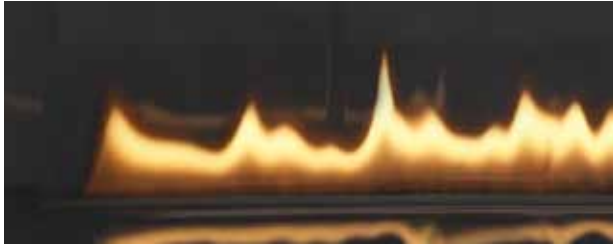

Opal

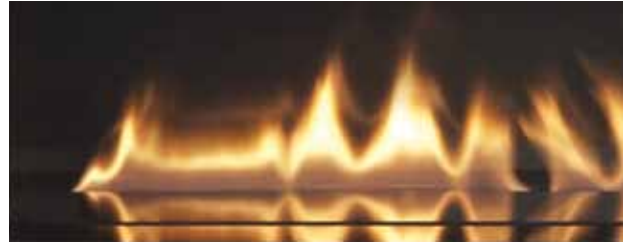

RED SERIES

REFRACTORY OPTIONS

The interior of your firebox comes alive with optional reflective black porcelain panels or highly polished black granite stone. Choose either of these options as an upgrade to customize your fire. Includes matching granite or porcelain base when no media is selected.

Black Porcelain refractory and base

Absolute Black Granite refractory and base

SURROUND OPTIONS

Combining a black granite stone surround with a matching black granite refractory results in a true, seamless transition between firebox and surround. All RED Series fireplaces ship with a standard mesh frame.

Six-piece Stone Surround (Shown with required standard mesh)
Absolute Black Granite

Standard Mesh Frame (Required)
One piece frame with mesh

TAKE CONTROL

The WSK-21 wall control is included standard, or add an optional remote control for even more convenience.

CONTROL RECOMMENDATIONS

INTELLIFIRE IGNITION SYSTEM

The IntelliFire™ Ignition System (IPI) is an advanced intermittent pilot ignition system. IPI constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs. To learn more about IntelliFire Technology, scan the code to the right with your smartphone, or visit heatnglo.com.

DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more about IntelliFire Technology, scan the code to the right with your smartphone, or visit heatnglo.com.

EFFICIENCIES

U.S. EFFICIENCIES

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a “steady state”.

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

CANADA EFFICIENCIES

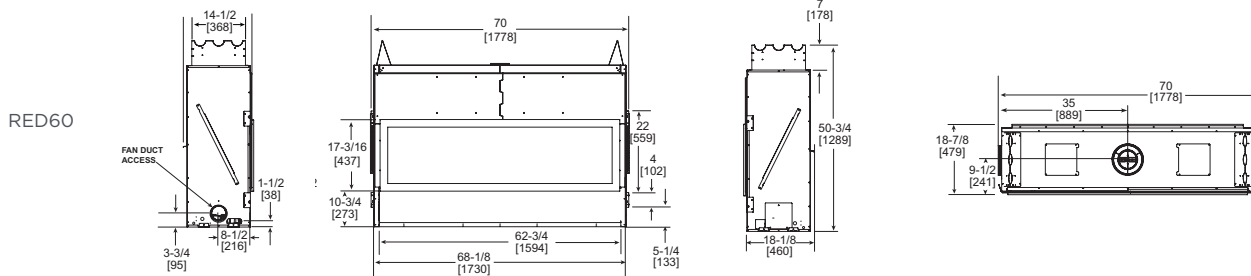

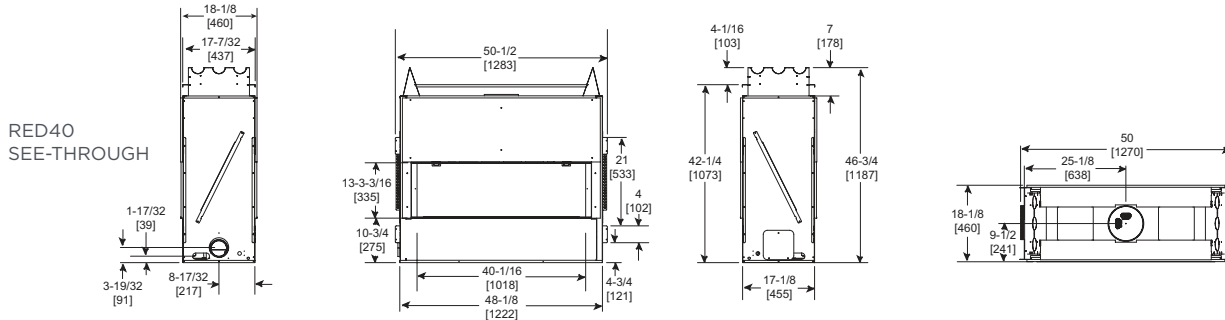

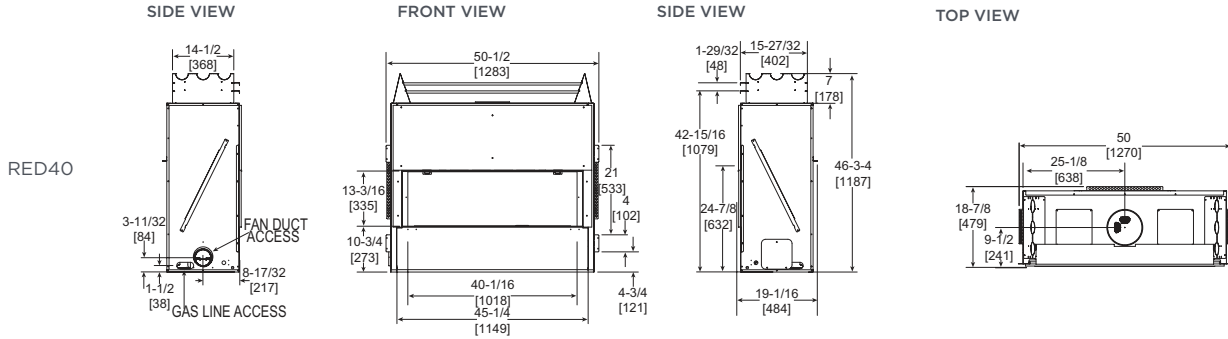

EnerGuide (CSAP.4.1.-02) - EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

RATING	RED40	RED40-ST	RED60
Steady State	67.2% (NG), 67.2% (LP)	69.7% (NG), 69.7% (LP)	59.0% (NG), 59.0% (LP)
AFUE	52.4% (NG), 55.4% (LP)	64.3% (NG), 60.0% (LP)	57.2% (NG), 57.2% (LP)

RATING	RED40	RED40-ST	RED60
EnerGuide (CSA P.4.1-02)	57.2% (NG), 57.5% (LP)	66.4% (NG), 61.5% (LP)	59.7% (NG), 59.7% (LP)

Dimensions above are in inches. Reference dimensions only. We recommend measuring individual units at installation. Assumes the use of 1/2" Sheetrock. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.
